# Artificial Intelligence-Based Agricultural Supply Chain E-Commerce Application

**Super Admin User Interfaces**

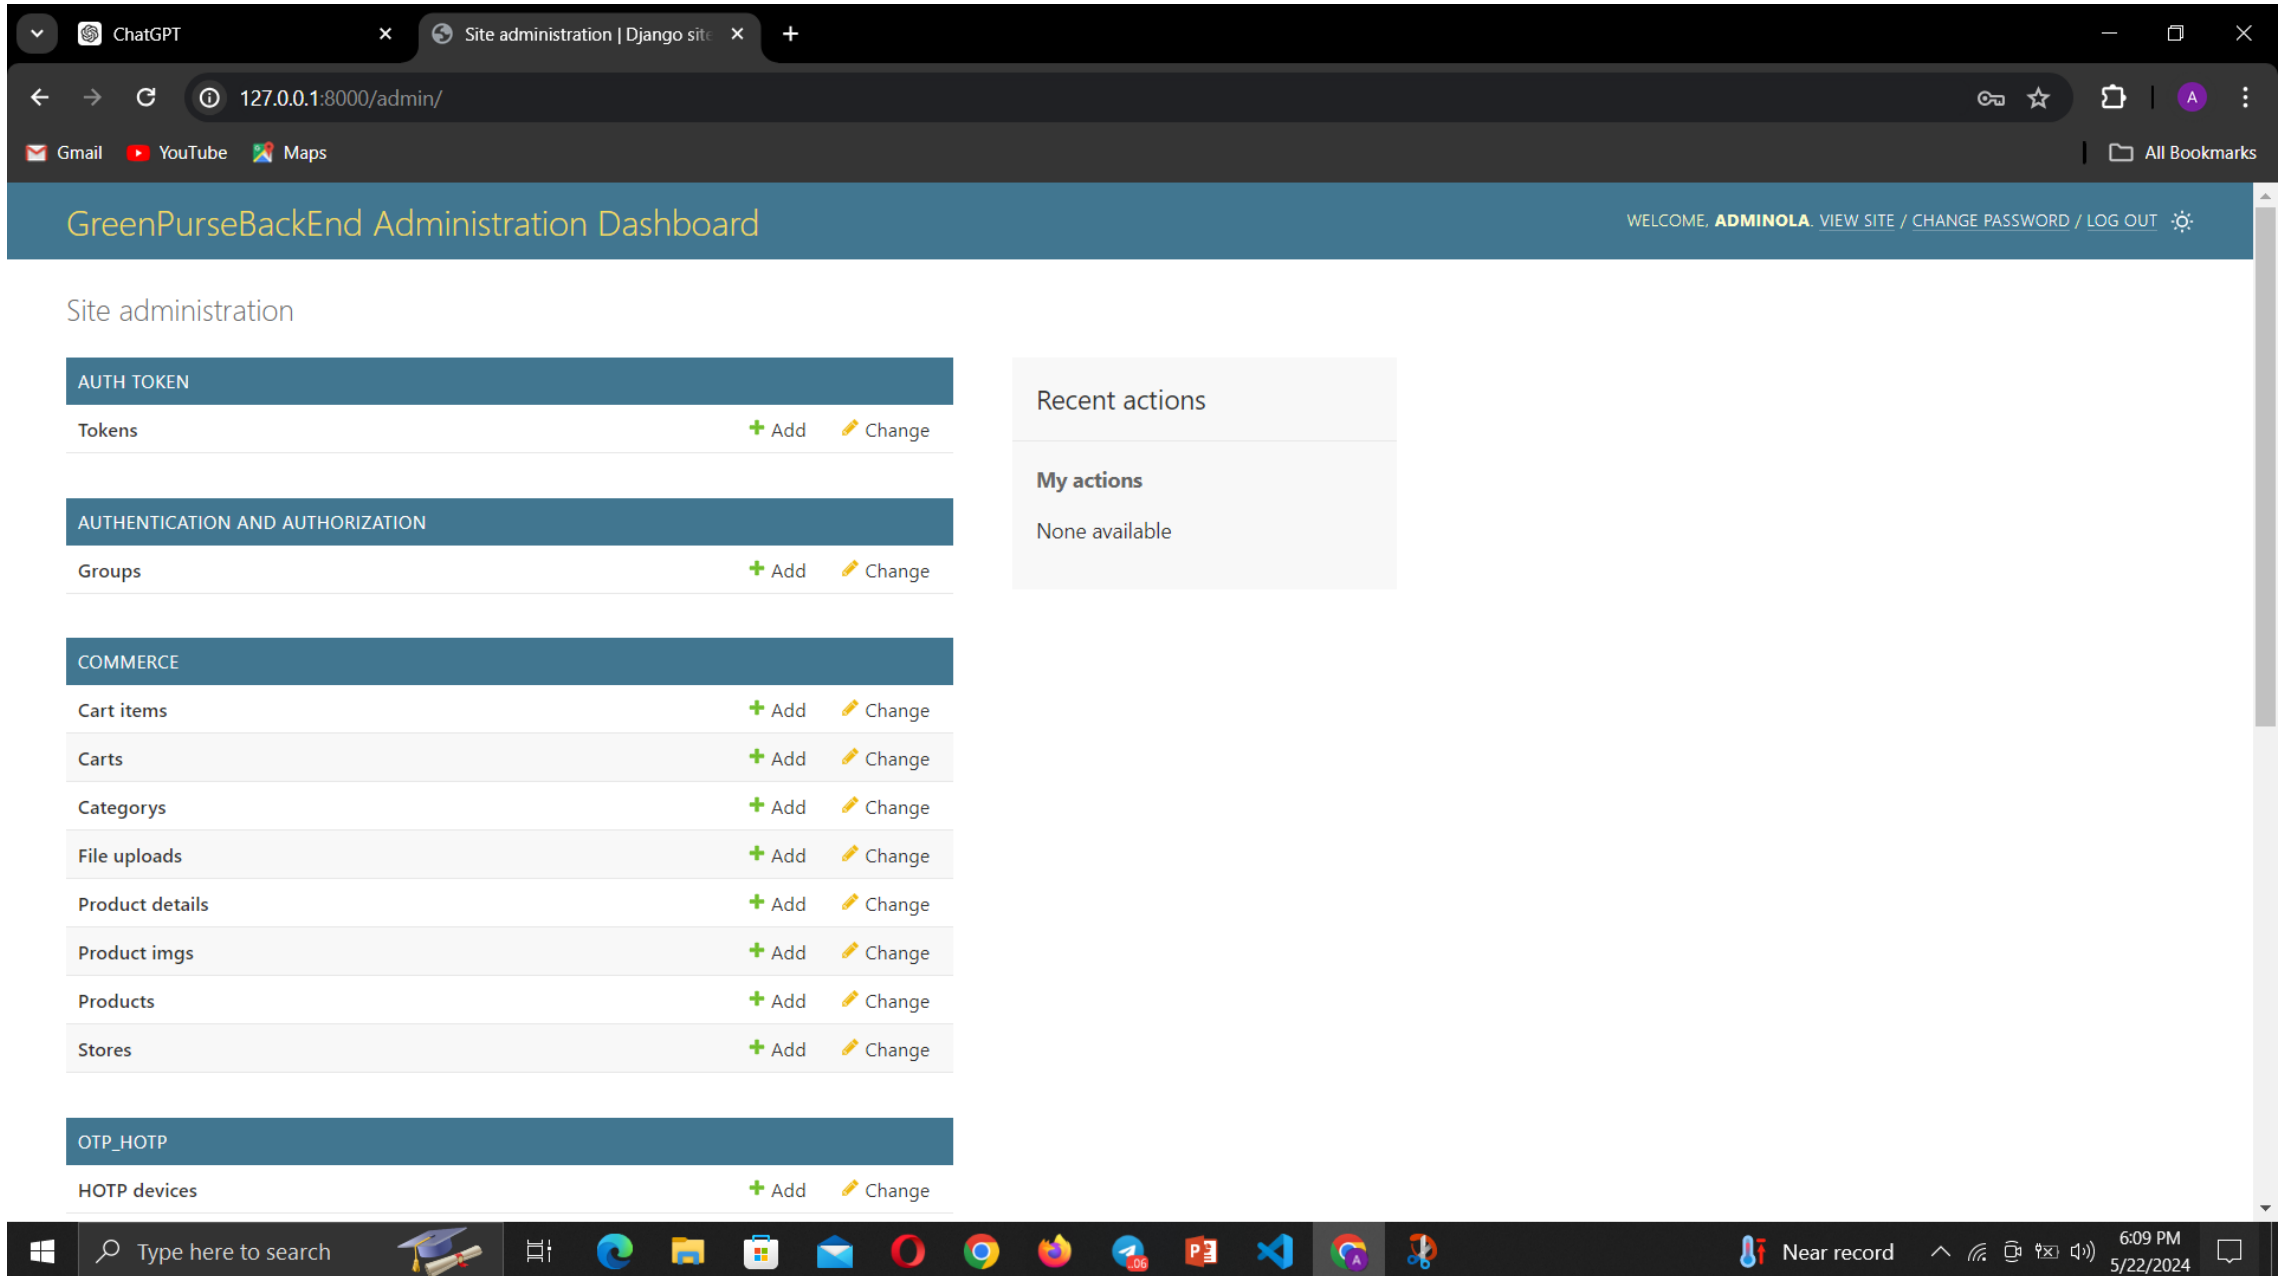

**SUPER ADMIN DOCUMENTATION  
PRESENTATION**

# Super Admin User Interfaces

# Super Admin User: Login

# Super Admin User: Dashboard

# Super Admin User: Product Upload

The image is a screenshot of a web browser window displaying a Django admin interface for adding a product. The browser has several tabs open, including 'ChatGPT' and 'Add product | Django site admin'. The address bar shows the URL '127.0.0.1:8000/admin/commerce/product/add/'. On the left side, there is a sidebar menu with various categories. The 'COMMERCE' section is expanded, and the 'Products' item is highlighted. The main content area is titled 'Add product' and contains a form with the following fields: 'Title' (a text input), 'Description' (a large text area), 'StoreId' (a dropdown menu with a search icon), 'Category' (a dropdown menu with a search icon), 'Price' (a text input), 'Kilogram' (a text input), 'Stock' (a text input), and 'Condition' (a text input). At the bottom of the form, there are three buttons: 'SAVE', 'Save and add another', and 'Save and continue editing'. The browser's taskbar at the bottom shows various application icons, including the Start menu, search bar, and several open applications like File Explorer, Chrome, and VS Code. The system clock in the bottom right corner indicates the time is 6:11 PM on 5/22/2024.
